

THE FD40 IS AN EASY TO OPERATE, VARIABLE SPEED, PROGRAMMABLE FOLDER.

This is the world's most user friendly folder – bar none. Simply place your documents into the feeder and press the fold button on the control panel. That's it! Your letters are neatly folded, stacked and ready to go in just seconds.

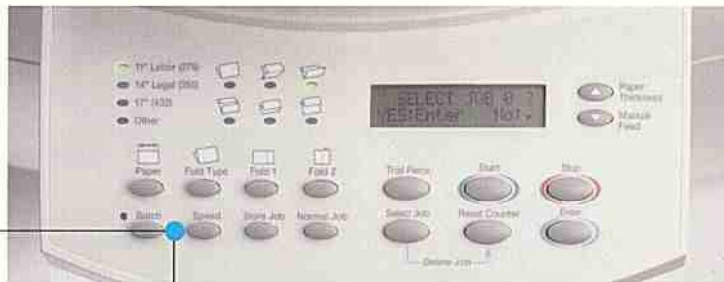

QUIET OPERATION

- The FD40 is surprisingly quiet. It operates at 70db or lower.

EASY-TO-USE CONTROL PANEL

Virtually anyone can operate this system. The LCD

control panel has text based messages that prompt the user through each step. It is that easy.

PAPER FRIENDLY

The FD40 handles most papers from 14 lb. to 50 lb.

PROGRAMMABLE MEMORY

The memory stores the exact type of fold and batch quantity for up to 10 unique jobs.

AUTOMATIC PAPER SEPARATION

The FD40 electronically adjusts for paper separation. Simply insert a sample sheet, press the thickness button and the FD40 adjusts automatically.

LABOR SAVINGS

The FD40 can save up to two and one half hours per 1000 piece mailing when compared to manual folding.

FIVE FOLDS

The FD40 offers you five standard fold styles. Each of these folds can be uniquely customized to meet your specific needs.

- Single Fold,
- Double Parallel Fold,
- Letter Fold,
- Z-Fold,
- Z-Fold with Margin.
