

“Turn & Tab” News

Volume 1, Issue 1
August 1, 2009

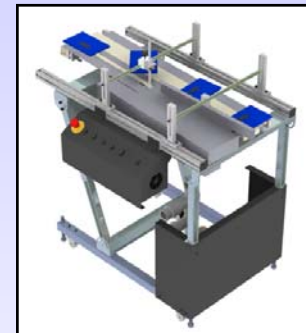

- Are you ready for the new postal regulation going into effect September 8th?

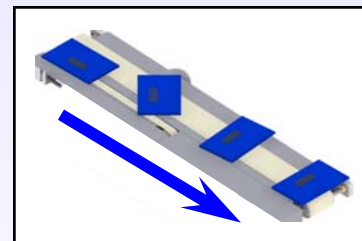

- It requires booklets to be tabbed in a new location with 1-1/2" tabs.

- The solution? The Paragon Power Turn™. It automatically turns media 90° and works with your existing mailing equipment.

- The Power Turn™ is **fast** so your production speed stays the same. It outruns the competition by 2 to 1.

- Contact us at (828) 698-1532 or pmeinc@mindspring.com to schedule a visit to see the Power Turn™ at work!
